

## **HAGS LAUNCHES NEW FANTASY UNITS.**

### **Fantasy enlivens the playground.**

The HAGS Fantasy family consists of play units with theme-based design in terms of colors and shapes. The products feature robust and durable constructions. They are available in versions for children of different ages - from Fantasy play environments for toddlers to large play units for children up to 12 years - with themes like circus, sea, space, jungle and butterfly.

### **News!**

This year's additions to the Fantasy family of wooden play units are Qaron, Zambi, Jolak, Kelus and the playhouse Nebi. These playfully colored units are designed for children ages 2-5 years. Among the play functions are different forms of climbing and balance challenges, games, shop counters and telescopes that inspire children to play and interact.

### **Theme based design.**

All Fantasy units follow their theme throughout each part and play function. Poles, roofs, floors, walls and screens have been designed and colored to individual entities. On the jungle unit, for example, a slide is shaped like an elephant's trunk. HAGS Fantasy play units are suitable for playgrounds, on kindergarten and school yards, but also as solitaires, e.g. in urban environments.

*HAGS is a global company with a product offering that stretches over an extensive range - for play, sports and other outdoor recreation - designed for people of all ages.*
