# HAGS

## **NEW!**

### **JUMP FOR JOY WITH HAGS FLIPPER.**

HAGS Flipper is a modern springboard for children age 2-12 years. It encourages kids to test their ability to jump as far as they can. The extra leap also makes it fun for kids to do tricks in the air, e.g. spin or grab their feet.

#### **Many can play together.**

Many kids can use the Flipper together – a jump takes a few seconds and then the next person in line can take his or her turn. The Flipper helps kids develop, not only their social skills, but also balance, co-ordination and strength.

#### **Challenge yourself!**

To set goals and compete with themselves, the users can, for example, lay a stick on the ground to mark a point they want to reach. They can also challenge themselves to do a 180-degree or even a 360-degree spin in the air.

Flipper can also be placed on a safety surface of rubber asphalt, known as Wet pour. Wet pour comes in many colours and offers endless design possibilities. Add numbers, stars, footprints and other patterns that trigger kids' imagination and create new challenges for the Flipper users.

*HAGS is a global company with a product offering that stretches over an extensive range – for play, sports and other outdoor recreation – designed for people of all ages.*
